Company Profile

Blast Communications, Inc. (Blastcomm) is a recognized leader in delivering creative solutions in the area of Internet communications. From the simplest connection needs to the most complex we look to satisfy every connection need of our customers and partners. We go out of the way to make sure all our resources are available to service our client needs from our project assessment, network design, and compatibility all the way through to trouble shooting. *Every Blastcomm resource is at our clients disposal.* It is because of this philosophy that our client list continues to grow.

Blastcomm's beginnings are rich with actual design, implementation and support experience. Blastcomm is the natural progression of the humble backgrounds of its principals with their extensive experience in software design, development and consulting as well as network design and implementation. Not to leave out our extensive background in wireless networking and in depth knowledge of xDSL and other wired POTS technologies.

A natural progression for these resources was to come together and form Blastcomm a technology company delivering the highest quality service based on the years of experience of its' principals. In Blastcomm we go beyond the technologies and deliver quality and performance, which is to be unequaled. With our base of operations located Chicagoland we are strategically located to offer an excellent quality of service and value to our customers.

Blastcomm is truly 'your Ultimate source for all your Internet needs'. Supplying not only wired connectivity, but wireless networking services as well, Blastcomm provides pre-sale technical support, site surveys by experienced technicians, installations, post sale/installation support, training, custom programming, and a variety of other services and support contracts. Through Blastcomm's relationships with many world class Vendors, we are well positioned to provide for your total Internet needs.
